

2024-25 Student Technology Agreement

I, _____, understand that it is a privilege to use a Poudre School District laptop or Chromebook at school. In order to use this technology at school, I will agree to the following expectations. I also understand that my assigned laptop or Chromebook can be taken away for a time period determined by a teacher and/or administrator as a consequence for breaking any part of this agreement.

✓	EXPECTATION:
	I will treat all technology devices with extreme care. I understand that these devices are owned by the school district and are not my personal devices.
	I will only use devices in ways directed by my teachers. I understand that these devices are tools for learning and not toys used for entertainment. What I do on my assigned device is not private.
	I will only add or delete apps as instructed by my teachers. I will adjust the settings, arrows, and wallpaper only as directed by my teachers. I will only use the camera app as directed by my teachers.
	I will behave as a good digital citizen. I will only use the devices for sending appropriate and respectful comments or messages. I will only use the devices to search school appropriate topics.
	I will follow my teachers' direction with the devices. I will listen before I do.
	I will work together with my classmates on the devices when directed to. I will not use anybody else's device. I will only complete work while logged in as myself.
	I will be proactive by putting the devices away when and where instructed by my teachers. I will charge my device overnight so it is ready to use the next day.
